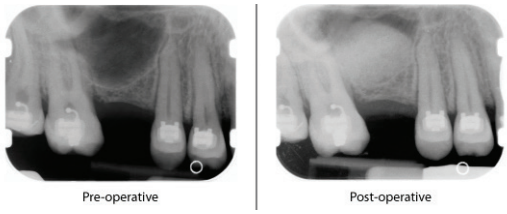
VENUE
University Club
Hackett Dr, Crawley

FEE (inc GST)
$187.00
Limit: 47 (includes 3 course dinner)

CONVENOR
Dr Jenny Ball

CPD HOURS: 3

Sinus elevation is currently a reliable procedure for bone augmentation in the posterior maxilla. Nevertheless, complications can arise from an incorrect surgical procedure or from anatomical anomalies. Most of the time, such complications can be avoided by carefully evaluating the preoperative CT scan, listening to the medical history of the patient, and performing the surgical procedure in the proper way. The most common complications and their management will be discussed with a general dentistry perspective in mind.



Pre-operative | Post-operative

About the Presenter:

Professor Carlo Maiorana obtained his degree in medicine and surgery in 1982. He then specialised in Stomatology in 1985 and in Orthodontics in 1987. He is a Professor and Chairman of the Department of Oral Surgery and Implantology at the University of Milan School of Dentistry, Italy. He is the Director of the Post Graduate School in Orthodontics at the University of Milan and the Director of the Center for Edentulism and Jawbone Atrophies, Fondazione Policlinico, at the University of Milan. Further he is the president of the Italian Society of Specialists in Oral Surgery (SISCOO) and also works in his private practice in Milan. He is author of over 100 publications in international journals and author of five textbooks on advanced osseointegration and oral surgery. His special fields of interest are osseointegration and bone regeneration, oral surgery and orthognatic surgery.
