West Perth

FEE (inc GST)
$770.00
Limit: 25 (includes lunch, morn/aft tea)

CONVENOR
Dr Jenny Ball

CPD HOURS: 6.5

Treatment planning plays an essential role in gaining valid informed consent. It is a skill that challenges many dentists in private practice by posing difficulties with both clinical and administrative case management. Too often the time constraints of a busy practice rather than case needs determine how much (or little) treatment planning is done.

This course is aimed at general dentists wanting to improve their case management skills of moderately complex cases by developing and implementing consistent treatment planning processes. Participants will be guided through an easy implemented, structured process to develop and present treatment plans for their patients. On completion they will have a "take home" framework along with supporting resources to efficiently treatment plan in everyday practice.

Course topics:

- The use of template documents, case documentation and digital data management.
- Appropriate diagnostic records, analysis and re-presentation of radiographic and photographic records.
- Formulation of provisional treatment plans covering all available treatment plans.
- Formulation of the definitive treatment plan.
- Appropriate use of the supporting resources.
- Incorporating treatment timelines into treatment plans.
- Multidisciplinary case management with appropriate specialist referral.
- Informed consent.

About the Presenter:

Dr Wayne Sherson is in private general dental practice in inner city Sydney. He received his BDS from University of Otago in 1984 and completed his Master of Science in Dentistry in Prosthodontics at the University of Sydney in 1992.

He is currently an adjunct lecturer at Charles Sturt University involved with the Post Graduate Diploma in Implant Dentistry and has previously held positions at the University of Sydney as a lecturer in undergraduate prosthodontics and the United Dental Hospital in periodontal research.

His areas of interest include complex treatment planning, implant treatment, and multi-disciplinary management of patients with systemic health issues that affect oral health. Dr Sherson is currently involved in presenting several CPD courses on dental implant treatment, complex treatment planning and systems health with a number of DML presentations available for viewing on the ADA Federal body's website.
