

October

Advanced Interpretation of OPGs and Intraoral Radiographs

Presented by Clinical Professor Bernard Koong & Dr Tom Huang

Date

Saturday 13th October 2018

Time

Registration: 8.30am

Course: 9am-5pm

Venue

ADA House

54-58 Havelock St West Perth

Fee (inc gst)

\$605.00

(Includes morn/aft tea & lunch)

Convenor

Dr Jenny Ball

CPD Hours: 6

Course Outline:

Have you ever been unsure about what you have seen on an Intra-oral radiograph or OPG? This course will elevate your skills to the next level in the lineage of the great Dr Harry Worth.

What you will learn:

Detailed OPG and Intra-oral radiologic anatomy and normal variants.

1. Key radiologic appearances which indicate the presence of pathology.
2. Radiologic features of benign and malignant lesions – what you really cannot afford to miss.
3. Radiologic appearances of inflammatory dento-alveolar diseases and the differential diagnosis – how to tell when a periodontal or periapical lesion is not inflammatory?
4. A systematic method of analysing radiographs.

About the Presenters:

Clinical Professor Bernard Koong is an Oral and Maxillofacial Radiologist. He completed his under graduate degree at UWA and his specialist training with the world renowned Professor Michael Pharoah at the University of Toronto, where he was the first oral and maxillofacial radiology (OMR) registrar. He is a founding partner at Envision Medical Imaging. He holds Clinical Professorial appointments at UWA and USyd. Bernard has presented more than 100 lectures worldwide. Bernard was Vice Chairman and member of the Scientific Committee of the 33rd ADA Congress. He is author of the recently published Atlas of Oral and Maxillofacial Radiology and was the author of the radiology chapter of the 6th edition of Lindhe and Lang's Clinical Periodontology and Implant Dentistry.

Dr Tom Huang is an Oral and Maxillofacial Radiologist. Tom completed both his under graduate and post graduate degrees at The University of Queensland. He has held positions of visiting lecturer, clinical supervisor and external examiner at the University of Queensland School of Dentistry and the University of Western Australia School of Dentistry. He has also presented topics in radiology and radiography internationally and continues to have research interests in Cone Beam Computed Tomography. Tom currently consults at Envision Medical Imaging in Perth, Western Australia. He is also the Australian regional director for the IADMFR. Tom has published papers in peer reviewed journals and is a contributing author of the Atlas of Oral and Maxillofacial Radiology .

These highly experienced presenters have collectively reported in excess of 250,000 OPGs in addition to large volumes of Cone Beam CT, Multislice CT, MRI and Intraoral radiography cases.
